

JOB PROFILE

DATE: MAY 31, 2019
POSITION: IT Developer/Programmer
STATUS: REGULAR, FULL TIME
SHIFT: MONDAY TO FRIDAY
HOURS: 7.5 HOURS/DAY
LOCATION: BURNABY

Hemlock Printers Ltd. is an internationally recognized leader in print communications with our manufacturing plant in Burnaby, British Columbia and sales associates in Burnaby, Seattle and San Francisco. For more information, please visit www.hemlock.com.

We have an opening for a Developer/Programmer to join our IT Department. As part of Hemlock's IT team, the position provides software development and programming services for a diverse range of internal and customer facing projects. In this role, you will work closely with the IT team and stakeholders in various departments on new projects and handle ongoing maintenance of existing applications, integrations and solutions. The position is largely focused on custom development work relating to print ordering sites and order management dashboards.

Core Responsibilities:

- Analyse, design and code applications solving business issues using industry standards and best practices
- Collaborate with multi-disciplinary teams to find the best solutions using a wide variety of technologies, systems and services
- Test and maintain software products to ensure strong functionality and optimization
- Recommend improvements to existing software programs as necessary
- Participate in reviewing and optimizing processes and codebases
- Develop technical documentation to support application maintenance
- Write quality, clean, well commented code
- Able to find and implement solutions while considering requirements such as:
 - Support and long-term maintenance
 - Extensibility, scalability
 - Best practices for the given language (C#, JavaScript)

Skills & Qualifications:

- Related degree in web development, programming, computer engineering, software engineering or equivalent
- 1+ years of experience with C#, ASP.NET, SQL and web-based APIs (REST / SOAP / ODATA), working with relational databases crucial
- Knowledge of systems and programming languages: Windows, OS X, Linux, IIS, Apache, SQL Server, MySQL, .NET Applications, JavaScript, PHP
- Experience with developing web UI with HTML/CSS/JavaScript libraries

- Working understanding of application security and safety precautions (OWASP knowledge)
- Experience with Microsoft Dynamics NAV beneficial
- Able to manage multiple, diverse and complex projects with minimal supervision
- Strong written and verbal skills

If you are interested in this opportunity, please forward your resume to hrd@hemlock.com and quote "Developer/Programmer" in the email subject line. Links will not be accepted.

Open Until Filled.

We would like to thank all applicants for their interest, however only short-listed candidates will be contacted.
